1. Introduction

1.1 Purpose of this Document

This Design Specifications document defines the complete visual, interaction, and interface design of the Uni Textbook Marketplace platform. It provides authoritative reference for all the design decisions in our project, covering the brand identity, colour system, typography, component library, screen layouts, navigation behaviour, accessibility standards, and responsive design rules.

1.2 Scope

The design specifications cover the following surfaces of the Uni Textbook Marketplace:

- Landing page (unauthenticated)
- Registration flow (4-step multi-step form)
- Login page
- Authenticated homepage / listings browse
- My Listings page
- Listing detail page
- Create Listing form
- Admin Review Dashboard
- Global navigation bar (unauthenticated and authenticated states)

1.3 Design Philosophy

The visual identity of the Uni Textbook Marketplace is derived from the Agile Bridge brand guidelines as observed on the live Agile Bridge website (www2.agilebridge.co.za). The design follows five core principles:

1. **Bold and confident headings.** Large, heavy Montserrat type with cyan accents creates energy and draws the user's attention.
2. **Cyan as the signature colour.** #00B4D8 appears on every interactive element. It is the most recognisable single brand element.
3. **Clean white layouts.** Generous white space. No cluttered backgrounds. Content breathes.
4. **Rounded but professional.** Buttons have a slight border radius of 4px, not completely sharp or pill-shaped.
5. **Montserrat throughout.** A consistent typeface creates cohesion across all text sizes and weights.

2. Brand Style Guide

2.1 Colour Palette

Important Note on Brand Colours

The Agile Bridge website's WordPress theme CSS contains an older teal colour (#1a6c7a) used for theme defaults. The actual visual brand identity is based on bright cyan (#00B4D8) as seen on the live website. This guide reflects the visual brand, not the theme CSS defaults.

Swatch	Name	HEX	Usage
	Primary Cyan	#00B4D8	Buttons, accent headings, highlights, links, interactive elements
	Cyan Hover	#0096B4	Button hover and focus states (10% darker)
	Dark Navy	#1F497D	All heading text (H1 to H6)
	Dark Grey	#3a3a3a	Body text, general content
	Subtle Grey	#4B4F58	Meta text, captions, subtle labels, placeholders
	Light Grey	#F5F5F5	Card backgrounds, input backgrounds, panels
	Border Grey	#dddddd	Borders, dividers, input borders
	Medium Grey	#E5E5E5	Subtle separators
	White	#FFFFFF	Page backgrounds, cards, modals, nav
	Danger Red	#dc2626	Error states, danger buttons
	Link Cyan	#006D8A	Link text on white backgrounds (WCAG AA compliant)

2.1.1 Colour Usage Rules

- **Primary Cyan #00B4D8** - all interactive elements: buttons, links, selected states, focus rings, accent text.
- **Cyan Hover #0096B4** - hover and focus on all cyan elements only.
- **Dark Navy #1F497D** - headings only, never body text.
- **Dark Grey #3a3a3a** - all body text, labels, paragraphs.
- **White #FFFFFF** - page backgrounds, navigation, cards, modals.

- **Link Cyan #006D8A** - hyperlink text on white backgrounds only. Do not use Primary Cyan for inline text on white (contrast ratio is below WCAG AA for body text).

2.2 Status Badge Colours

Listing status badges use opaque background colours with dark foreground text to ensure WCAG AA compliance at all sizes.

Status	Background	Text	Contrast
PENDING	#D0F0F7	#004F66	7.1:1
APPROVED	#D0F0DC	#155E2E	7.4:1
REJECTED	#FDE8E8	#7F1D1D	8.1:1

2.3 Authentication Page Background

The login and registration pages use a diagonal linear gradient applied to the full viewport behind the card. This gradient uses only brand colours and provides a visually distinctive entry point to the platform.

Stop	Colour	Position
	Dark Navy	#1F497D
	Mid Cyan	#006D8A
	Primary Cyan	#00B4D8

CSS declaration:

```
background: linear-gradient(135deg, #1F497D 0%, #006D8A 50%, #00B4D8 100%);
```

2.4 Typography

2.4.1 Font Family

The platform uses a single typeface throughout: **Montserrat**, loaded from Google Fonts. No secondary typeface is used.

```
@import url('https://fonts.googleapis.com/css2?family=Montserrat:wght@400;500;600;700&display=swap');
```

2.4.2 Type Scale

Element	Size	Weight	Transform	Line Height
H1	50px / 3.125rem	700	None	1.2em
H2	28px / 1.75rem	700	Uppercase	1.3em
H3	22px / 1.375rem	600	None	1.3em
H4	18px / 1.125rem	600	None	1.3em
H5	16px / 1rem	600	None	1.4em
H6	14px / 0.875rem	600	None	1.4em
Body	16px / 1rem	400	None	1.6em
Button	14px / 0.875rem	600	None	1em
Caption	14px / 0.875rem	400	None	Inherit

2.4.3 Mobile Type Scale (max-width: 921px)

Element	Size
H1	2.5rem / 40px
H2	1.5rem / 24px
H3	1.25rem / 20px
Body	1rem / 16px

2.5 Buttons

2.5.1 Primary Button

Property	Value	Notes
Background	#00B4D8	Primary Cyan
Text colour	#ffffff	White
Font	Montserrat 600	14px / 0.875rem
Padding	14px top/bottom, 28px left-/right	
Border radius	4px	Slightly rounded
Border	None	Background only
Hover ground	back- #0096B4	10% darker
Disabled ground	back- #E5E5E5	Disabled text: #4B4F58

2.5.2 Secondary / Outline Button

Property	Value	Notes
Background	Transparent	
Text colour	#006D8A	Link Cyan (WCAG AA on white)
Border	2px solid #00B4D8	
Hover back-ground	#00B4D8	Text switches to #ffffff

2.5.3 Danger Button

Used for destructive actions such as confirming a rejection.

Property	Value
Background	#dc2626
Text colour	#ffffff
Hover back-ground	#b91c1c

2.6 Form Inputs

Property	Value
Default border	1px solid #dddddd
Focus border	1px solid #00B4D8
Focus ring	box-shadow: 0 0 0 3px rgba(0, 180, 216, 0.15)
Background	#FFFFFF
Border radius	4px
Font	Montserrat, 400 weight, 16px
Placeholder colour	#4B4F58
Error state border	1px solid #f87171
Error message colour	#b91c1c

2.7 Cards

Property	Value
Background	#FFFFFF
Border	1px solid #dddddd
Border radius	6px
Padding	1.5rem (24px)
Hover shadow	0 4px 12px rgba(0, 0, 0, 0.08)

2.8 Layout and Spacing

Setting	Value
Max content width	1200px
Desktop container padding	35px left and right
Mobile container padding	20px left and right
Desktop breakpoint	922px and above
Mobile breakpoint	921px and below
Small mobile breakpoint	544px and below
Card border radius	6px
Button border radius	4px
Input border radius	4px

3. Navigation

3.1 Global Navigation Bar

The navigation bar is fixed at the top of every page. It has two distinct states depending on authentication.

3.1.1 Unauthenticated State

Element	Specification
Background	#FFFFFF white
Min height	70px
Logo position	Left-aligned
Logo text	“UNI TEXTBOOK” (cyan, small caps) + “Marketplace” (dark navy, bold)
Right side	“Register” (secondary outline button) + “Login” (primary filled cyan button)
Bottom border	1px solid #dddddd

3.1.2 Authenticated State

Element	Specification
Background	#FFFFFF white
Logo position	Left-aligned
Centre links	Browse, Sell, Messages, Favourites
Link colour	#3a3a3a default, #00B4D8 on hover
Right side	Notification bell icon + Avatar circle (cyan, initials) + Username + Chevron dropdown
Avatar background	#00B4D8 with #ffffff initials
Initials source	First letter of first name + first letter of surname from database

3.1.3 Mobile Navigation

On viewports below 921px, the centre navigation links collapse into a hamburger menu. The hamburger icon is right-aligned. Tapping it expands a full-width dropdown panel containing all navigation links stacked vertically.

4. Page Designs

4.1 Authentication Pages

4.1.1 Background Treatment

Both the Login page and the Registration page share the same background: a diagonal gradient running at 135 degrees from Dark Navy at the top-left to Primary Cyan at the bottom-right. The card floats over this gradient, centred vertically and horizontally on the viewport.

4.1.2 Card Layout

Both authentication cards use a split two-column layout on desktop.

4.1.3 Login Page (Wireframe)

The wireframe illustrates the Login page layout. It is a split two-column design. The left column features a large blue shield icon with a white envelope and a checkmark, followed by the text "Welcome back!" and a video player placeholder with the text "Animation via JavaScript". The right column contains the "Login" section, which includes the heading "Login", the subtitle "Enter your details to access your account", a "University Email" field with an envelope icon and placeholder text "you@university.ac.za / you@university.co.za", a "Password" field with a lock icon and placeholder text "Enter your password", and a "Forgot Password?" link. A blue "Login" button is positioned at the bottom of the right column.

The login page right panel contains:

1. Heading: "LOGIN" (H2, dark navy, uppercase per H2 style).
2. Subtitle: "Enter your details to access your account" (body, subtle grey).
3. University Email field with envelope icon on the left. Placeholder: `you@university.ac.za / you@university.co.za`.

4. Password field with lock icon on the left and eye toggle button on the right (toggles between hidden and visible password text).
5. “Forgot Password?” right-aligned link below the password field. Colour: #006D8A.
6. Full-width primary Login button.
7. “Don’t have an account? Register” link centred below the button.

4.1.4 Registration Page (Wireframes): 4-Step Flow

The registration form is a 4-step multi-step form. A step progress indicator is displayed at the top of the right panel on all four steps.

Step Progress Indicator:

- Four numbered circles connected by horizontal lines.
- Completed steps: filled cyan circle (#00B4D8) with a checkmark icon.
- Active step: white circle with cyan border and cyan number.
- Inactive steps: white circle with grey border and grey number.
- Connector lines: cyan (#00B4D8) for completed, grey (#dddddd) for upcoming.
- Labels below each circle: “Personal Details”, “University Email”, “Verification”, “Password”.

Personal Details University Email Password Verification

Full Name(s)
Enter your full name(s)

Surname
Enter your surname

1 2 3 4 **Next**

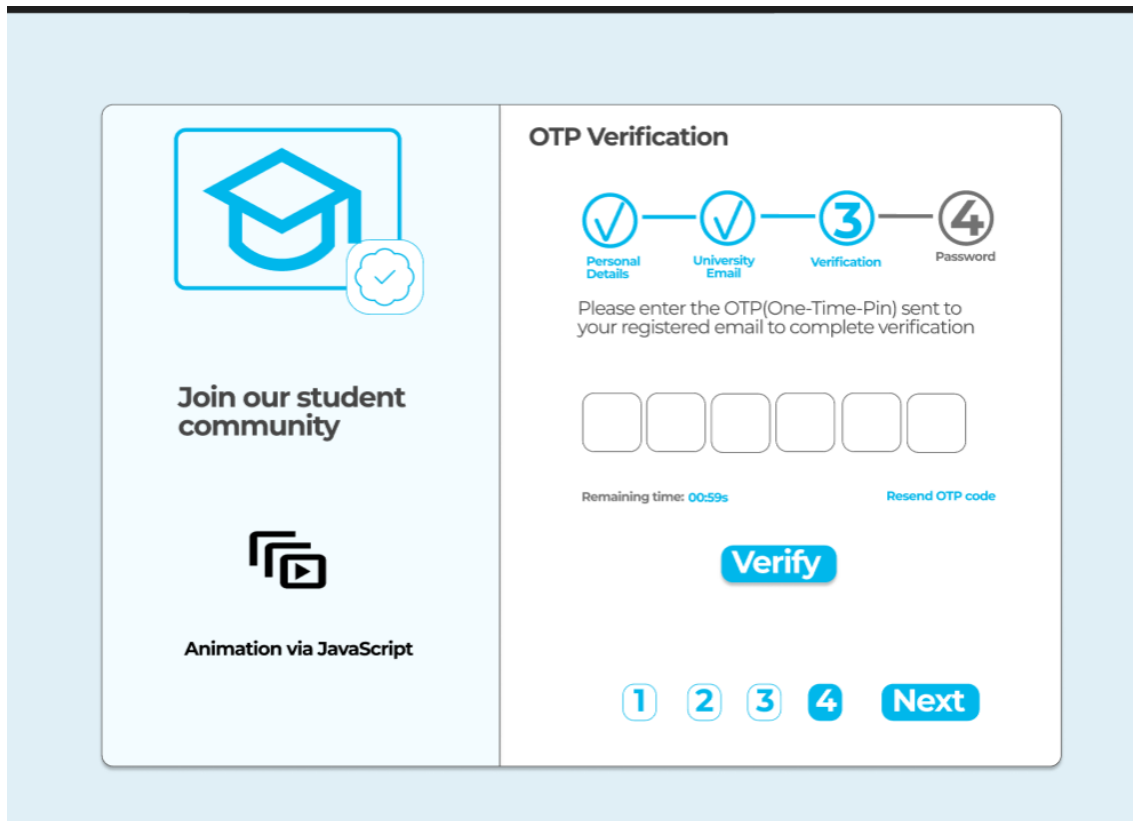

Step 1 - Personal Details: Heading “Create an account”. Subtitle “Fill in your details to get started”. Two input fields: Full Name(s) and Surname, each with a user icon on the left. Input fields use rounded-full pill shape (border-radius: 9999px) on both registration and login forms. Step navigation at the bottom: step dot indicators left, “Next” primary button right.

The image shows a registration form design for Step 1: Personal Details. The form is divided into two main sections. The left section has a light blue background and contains a blue graduation cap icon with a checkmark, the text "Join our student community", a play button icon, and the text "Animation via JavaScript". The right section has a white background and contains the heading "Enter university details" with the subtitle "Fill in your details to get started". Above the input fields is a progress indicator with four steps: 1 (Personal Details, checked), 2 (University Email, active), 3 (Password), and 4 (Verification). Below the progress indicator are two input fields: "Name of University/Institution" with a graduation cap icon and placeholder text "Enter the name of the University/Institution", and "University Email" with an envelope icon and placeholder text "you@university.ac.za / you@university.co.za". At the bottom of the right section are four step indicators (1, 2, 3, 4) and a blue "Next" button.

Step 2 - University Email: Heading “Enter university details”. Two input fields: Name of University/Institution (with graduation cap icon) and University Email (with envelope icon). Email is validated against the allowlist on submit. Step 1 circle shows a checkmark indicating completion.

The image shows a registration form for a student community. On the left, there is a light blue box with a graduation cap icon and a checkmark icon, the text "Join our student community", and a play button icon with the text "Animation via JavaScript". On the right, the form is titled "Password" with the subtitle "Create your password". It features a progress bar with four steps: "Personal Details", "University Email", "Password", and "Verification". The "Password" step is currently active. Below the progress bar, there are two password input fields: "Password" and "Confirm Password", each with a lock icon on the left and an eye toggle on the right. Below the input fields, there is a checkbox with the label "I agree to the Terms of Service and Privacy Policy". At the bottom, there are four numbered dots (1, 2, 3, 4) and a blue "REGISTER" button.

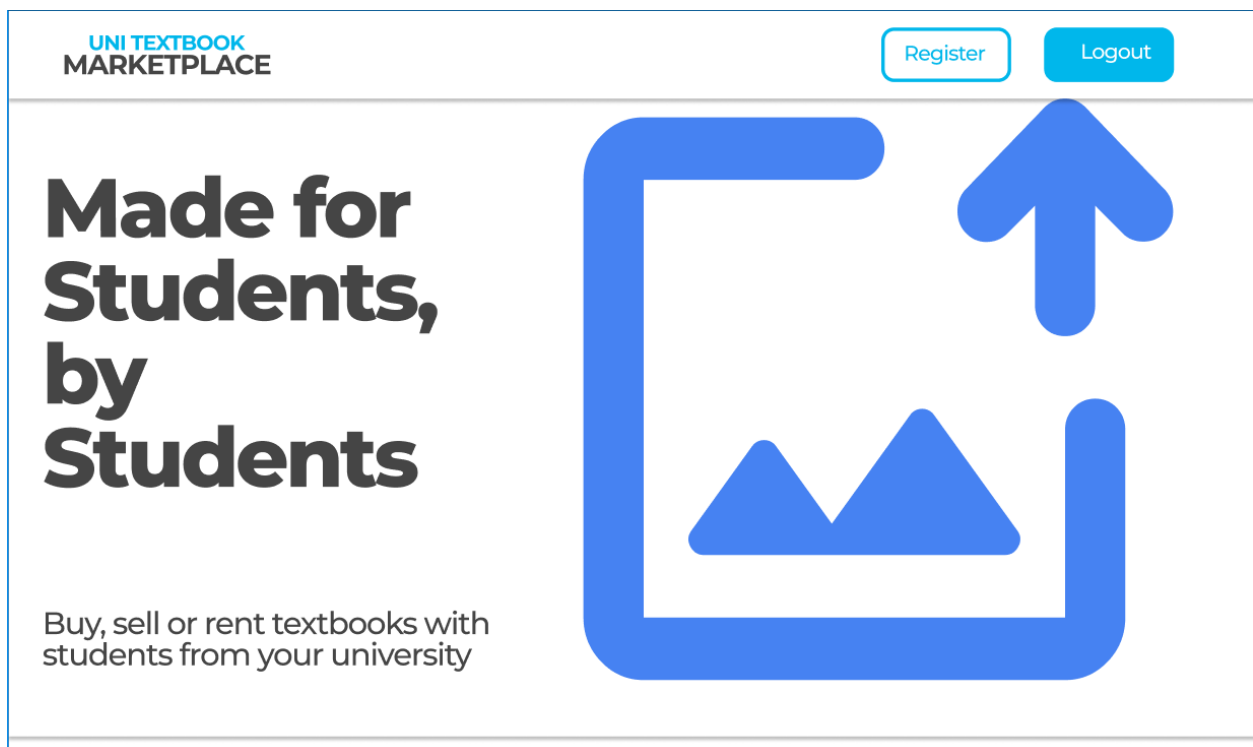

Step 3 - Password: Heading “Password”. Subtitle “Create your password”. Two password input fields: Password and Confirm Password, each with a lock icon on the left and an eye toggle on the right. Below the fields: a checkbox with label “I agree to the [Terms of Service](#) and [Privacy Policy](#)”. Step navigation: dot indicators left, “REGISTER” primary button right.

The image shows a design for an OTP Verification screen, divided into two main sections. The left section is a light blue box containing a graduation cap icon with a checkmark, the text "Join our student community", a play button icon, and the text "Animation via JavaScript". The right section is a white box with the heading "OTP Verification". It features a progress bar with four steps: "Personal Details", "University Email", "Verification" (highlighted with a blue circle and the number 3), and "Password" (highlighted with a blue circle and the number 4). Below the progress bar is the instruction: "Please enter the OTP(One-Time-Pin) sent to your registered email to complete verification". This is followed by six empty input boxes for the OTP code. Below the input boxes is a "Remaining time: 00:59s" countdown timer and a "Resend OTP code" link. A large blue "Verify" button is positioned below the timer. At the bottom of the right section, there are four numbered circles (1, 2, 3, 4) and a blue "Next" button.

Step 4 - OTP Verification: Heading “OTP Verification”. Instruction text: “Please enter the OTP (One-Time-Pin) sent to your registered email to complete verification”. Six individual single-digit input boxes displayed in a row. Active box has a cyan border. Remaining time countdown in format 00:59s displayed left-aligned below the boxes in cyan. “Resend OTP code” link right-aligned (disabled while timer is running). Full-width “Verify” primary button below the timer row.

4.2 Landing Page (Wireframe)

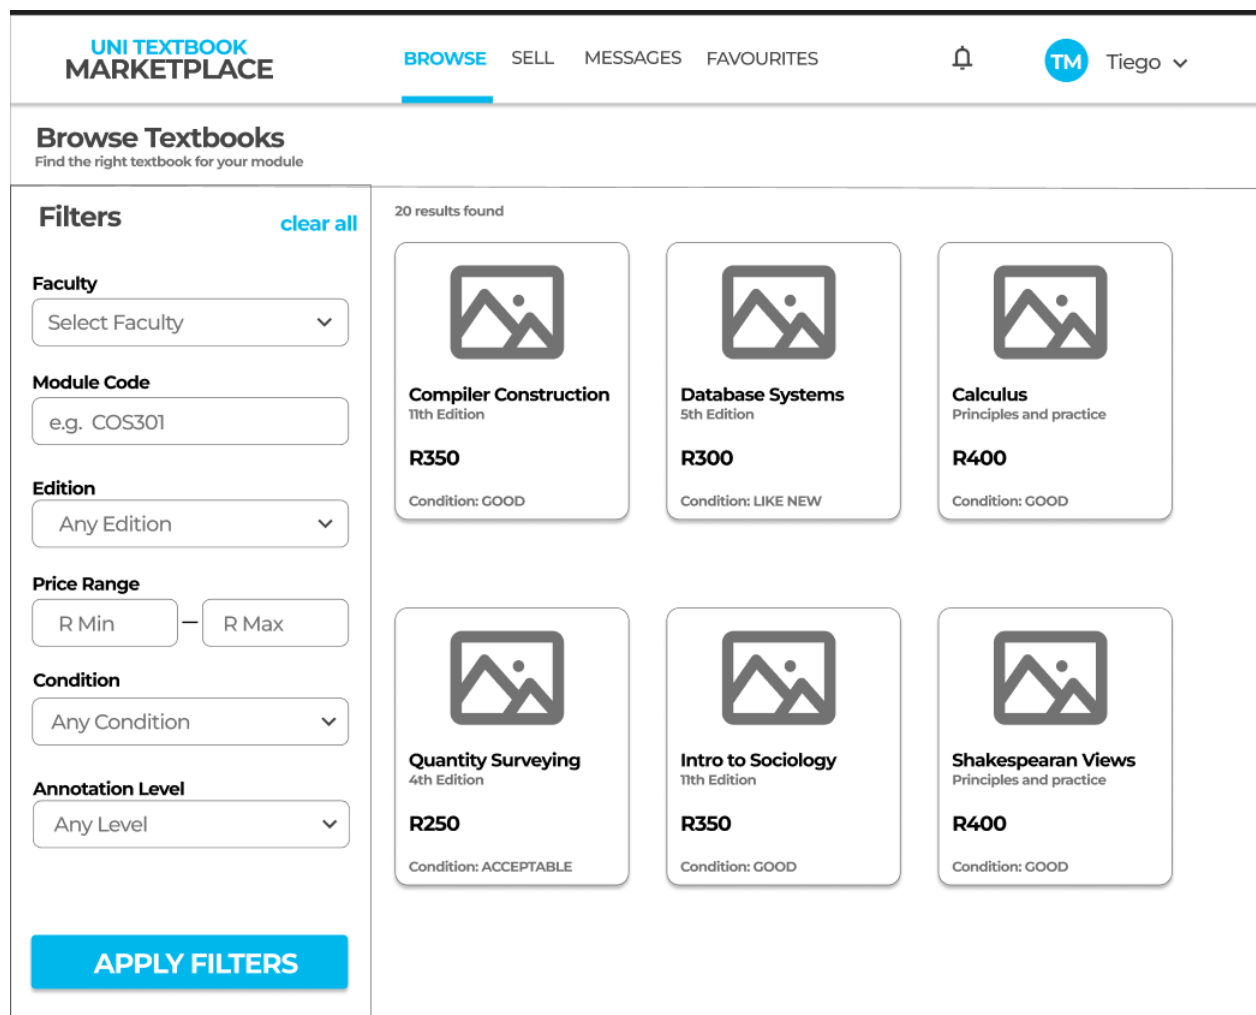

The landing page is the unauthenticated entry point. It consists of the following sections from top to bottom:

4.2.1 Hero Section

Two-column layout at desktop width. Left column contains the headline “Made for Students, by Students” (H1, dark navy), a subtitle “Buy, sell or rent textbooks with students from your university” (body text), and a call-to-action search bar. Right column contains a large image placeholder (textbook upload illustration). Background: white.

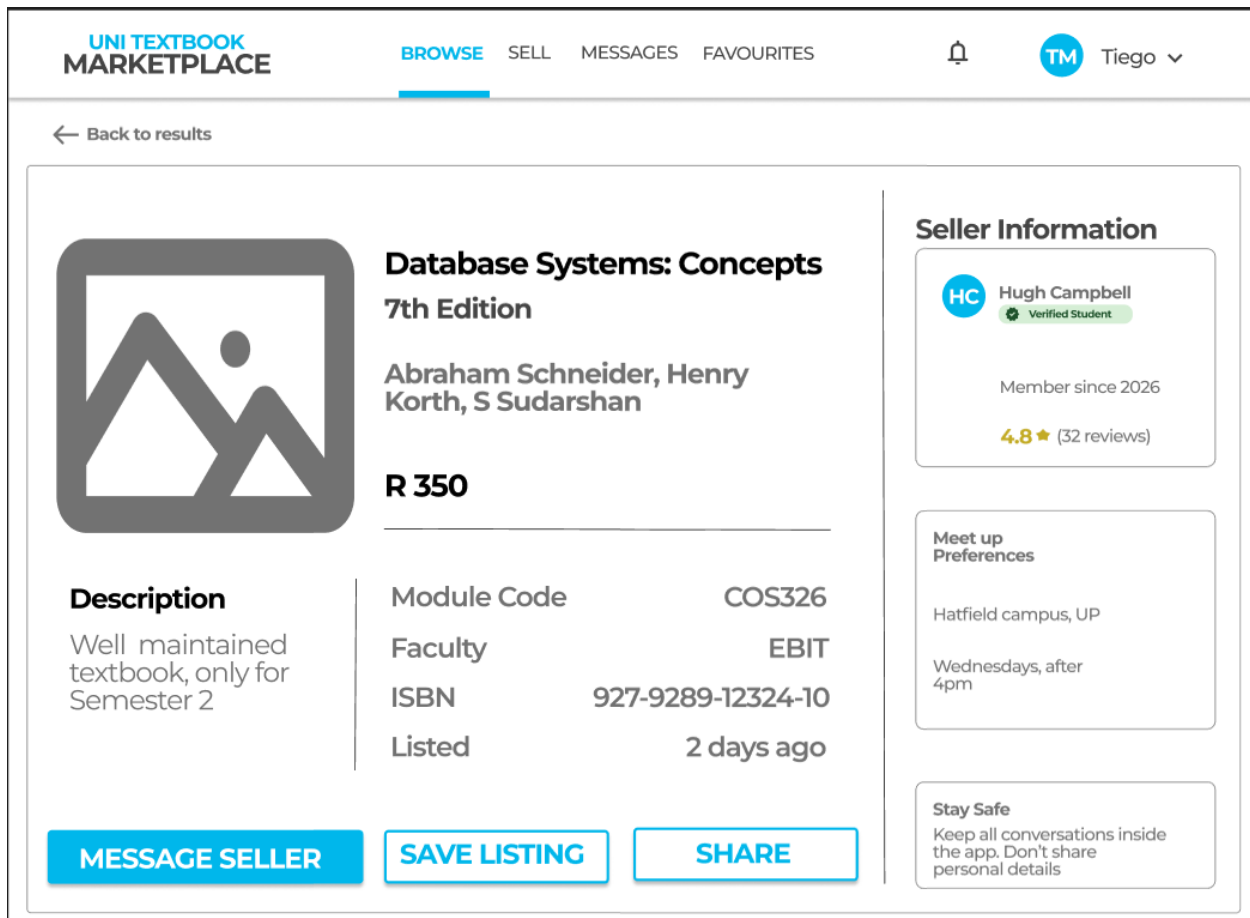

4.3 Listings Browse Page (Wireframe)

The listings browse page is the main authenticated view for students browsing available textbooks.

- **Filter sidebar (left):** Contains filter controls for module code (search-as-you-type), faculty (dropdown), condition (checkbox group), annotation level (checkbox group), and price range (min/max inputs).
- **Listing grid (right):** Responsive grid of listing cards. 4 columns on large desktop, 2 columns on tablet, 1 column on mobile.
- Each listing card shows: image or placeholder, title, edition, module code, price in Rands, and condition badge.
- Clicking a card navigates to the listing detail page.

4.4 Listing Detail Page (Wireframe)

The listing detail page displays the full information for a single listing.

- **Left column:** Photo carousel (or placeholder image). Below the photo: seller's verified badge and display name.
- **Right column:** Book title (H2), author, module code and name, ISBN, edition, condition badge, annotation level badge, has_notes indicator, price (large, dark navy), and a "Contact Seller" button (primary cyan, disabled and labelled "Coming Soon" for Demo 1).

Fill in the details below to create a listing

Book Details	Listing Details
Title * e.g. Database Systems: Concepts	Condition * Select Condition
Author * e.g. Abraham Schneider	Annotation Level * Select Level
Edition * e.g. 7th Edition	Price (R) * e.g. R 350
ISBN (optional) e.g. 927-1239-1237-10	Description * Describe the state of your textbook....
Module Code * e.g. COS326	Faculty * Select Faculty
Photos * Click to upload images or drag and drop. (Max 5 images)	
POST LISTING	

The Create Listing form is a single-page form. It contains the following fields in order:

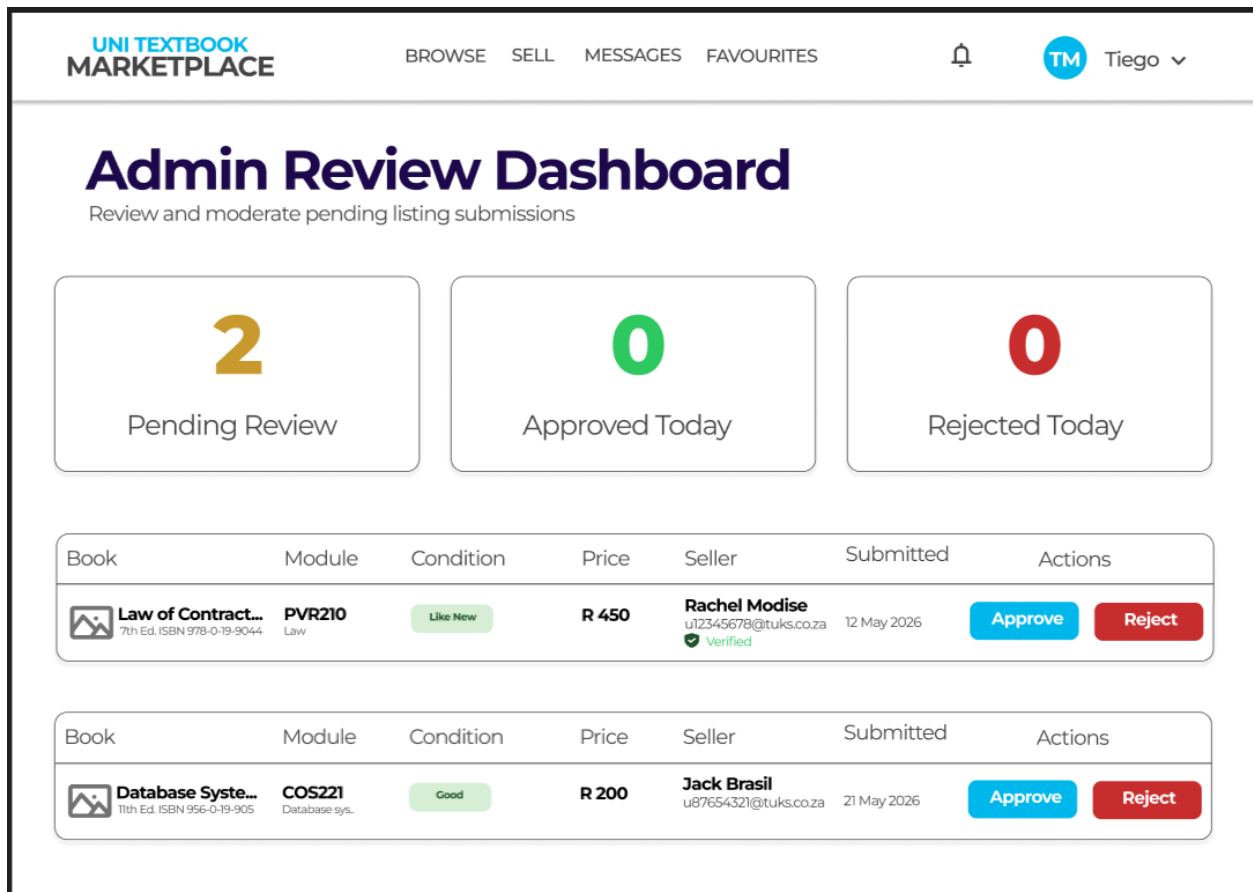

1. **ISBN** - text input, optional.
2. **Title** - text input, required.
3. **Author** - text input, optional.
4. **Edition** - number input, required.
5. **Condition** - select dropdown with options: New, Good, Fair, Poor. Required.
6. **Annotation Level** - select dropdown with options: None, Light, Heavy. Required.
7. **Module Code** - search-as-you-type input. Typing a partial code shows a dropdown of matching modules from the database. Required.
8. **Price (R)** - number input, minimum 0.01. Required.
9. **Includes Study Notes** - checkbox toggle. Default: unchecked.

10. **Photos** - multi-file upload input. Optional.

11. **Submit** - full-width primary cyan button labelled “Submit Listing”.

After successful submission, a success banner is shown: “Your listing has been submitted and is awaiting admin review.” The listing is visible on the student’s My Listings page immediately with a PENDING badge.

4.6 Admin Review Dashboard(Wireframe)

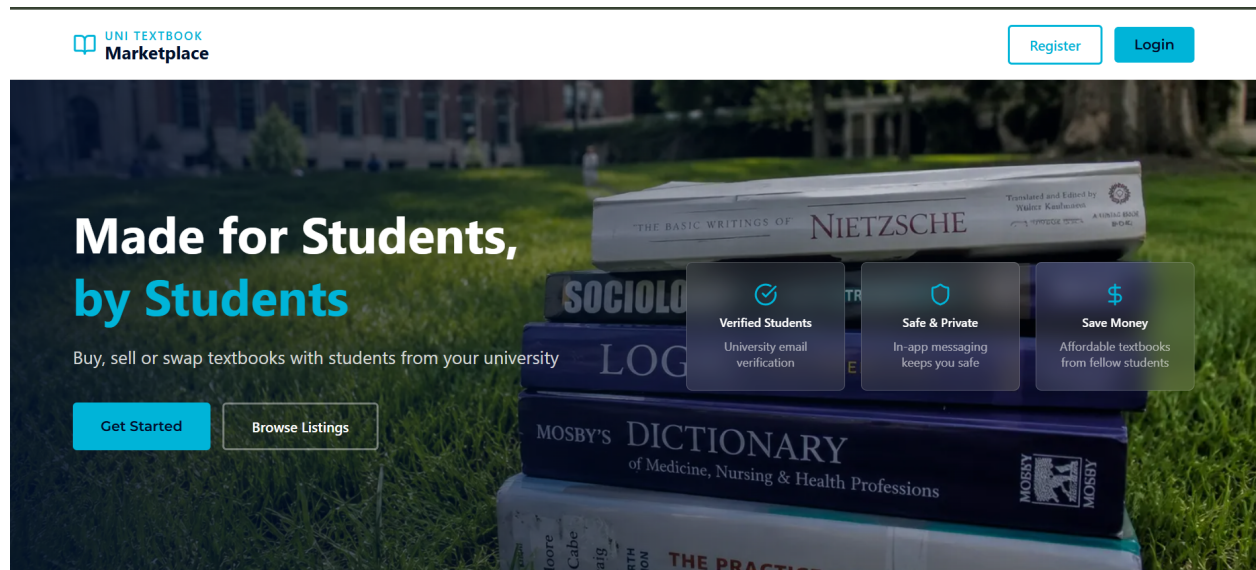

The Admin Review Dashboard is accessible only to users with the admin role. It is the primary moderation interface.

- Page heading: “Pending Listings” (H1).
- A summary counter showing the total number of pending listings.
- A table listing all PENDING submissions. Columns: Title, Seller Name, Module Code, Edition, Condition, Price, Submitted Date.
- Each row has two action buttons:
 - **Approve** : primary cyan button. On click: calls PATCH /admin/listings/:id/approve.
 - **Reject** : danger red button. On click: opens a confirmation modal with an optional rejection reason text field.

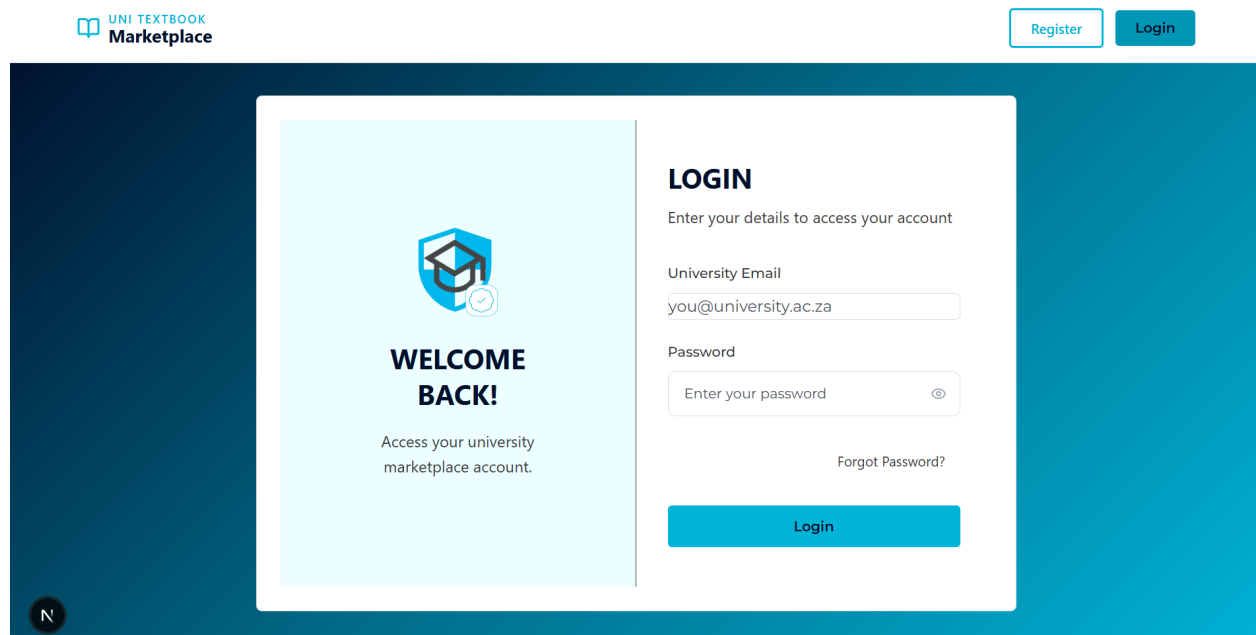

- Approved or rejected listings are removed from the table immediately with a success toast notification.

6. Accessibility

6.1 WCAG AA Compliance

The platform targets WCAG 2.1 Level AA compliance. The following rules are enforced across all UI components.

- **Colour contrast:** All foreground and background colour pairs have been validated to meet the 4.5:1 minimum contrast ratio for normal text and 3:1 for large text (18px bold or 24px regular). The full contrast audit is documented in Section 2.2 (badge colours) and the `globals.css` file.
- **Link text on white:** Link Cyan (`#006D8A`) is used instead of Primary Cyan (`#00B4D8`) for inline text links on white backgrounds. Primary Cyan on white fails the 4.5:1 ratio. Link Cyan on white achieves 5.1:1.
- **Form label association:** Every form input has a corresponding `<label>` element with a matching `htmlFor` and `id` pair. This is enforced by SonarCloud on every pull request.
- **Focus indicators:** All interactive elements have a visible focus ring. Inputs use a 3px cyan focus ring (`rgba(0, 180, 216, 0.15)`). Buttons use the browser default outline supplemented by hover state changes.
- **Minimum tap target size:** All interactive elements on mobile are a minimum of 44 x 44px.
- **Keyboard navigation:** All interactive elements are reachable via keyboard Tab navigation in a logical order.
- **ARIA labels:** Icon-only buttons (eye toggle, hamburger menu) carry an `aria-label` attribute describing their action.

6.2 SonarCloud Enforcement

Accessibility violations are treated as blocking issues in the SonarCloud Quality Gate configured on the GitHub repository. Every pull request must pass the Quality Gate before merging into the `develop` branch. Common enforced rules include: form labels must be associated with controls, links must have accessible names, and colour contrast must meet WCAG AA.
